Profile

I'm **Bharath Abhinav Balne**, a passionate B.Tech ↗ student with a strong grasp of **JavaScript, Java, and React**, along with foundational knowledge of MySQL. I have solved over **250+ Data Structures and Algorithms problems on LeetCode using Java and JavaScript**, which has sharpened my problem-solving skills. **I've worked on multiple solid front-end projects** and am currently diving into full-stack development to broaden my capabilities. I'm driven, quick to learn, and eager to contribute meaningfully to real-world software solutions.
